**INSTRUCTIONS
FORM DEQ 50-11S**

GENERAL

For tax years beginning on and after January 1, 1993 but before January 1, 2007, those corporations which qualify under Code of Virginia § 58.1-439.7 may receive an income tax credit for the purchase of machinery and equipment used exclusively in or on the premises of manufacturing facilities or in plant units which manufacture, process, compound or produce items of tangible personal property from recyclable materials, within the Commonwealth. For those corporations qualifying under § 58.1-439.8 of the Code of Virginia, the tax years are on and after January 1, 1998 but before January 1, 2003. The credit is an amount equal to ten percent of the purchase price paid during the taxable year, but shall not exceed forty percent of the Virginia income tax liability of such taxpayer (Code of Virginia § 58.1-439.7), or sixty percent of the Virginia income tax liability for those corporations qualifying under § 58.1-439.8 of the Code of Virginia. This is a nonrefundable credit, however, if the allowable credit exceeds the Virginia tax liability for the taxable year in which the purchase price on recycling machinery and equipment was paid, it may be carried over for credit against the corporation's income taxes in the ten succeeding taxable years until the total credit is used (Code of Virginia § 58.1-439.7), or in the case of those corporations qualifying under § 58.1-439.8 of the Code of Virginia, twenty succeeding years.

The machinery and equipment must be certified by the Department of Environmental Quality as integral to the recycling process in accordance with §§ 58.1-439.7 and 439.8 of the Code of Virginia.

The Department of Environmental Quality has developed this form to assist persons applying for the machinery and equipment certification, and to expedite the certification process. However, you are not required to use this form to apply for certification.
